Strengthening of master curricula in water resources
management for the Western Balkans HEIs and stakeholders

Project number: 597888-EPP-1-2018-1-RS-EPPKA2-CBHE-JP

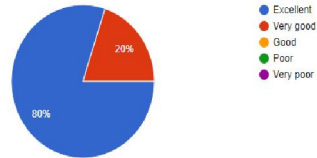

Contents

- Introduction
- Overall quality of the project
- Qualitative evaluation

Qualitative evaluation

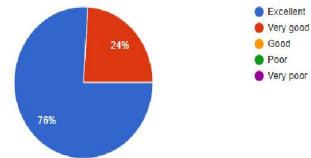

Communication between partners

50 responses

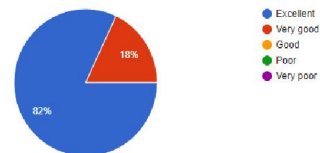

Satisfaction with the implementation of the SWARM activities

50 responses

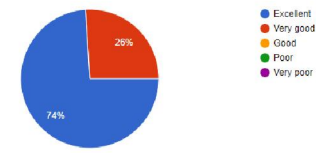

Quality of materials provided during the SWARM implementation

50 responses

Assignment of tasks by WP leaders

50 responses

The positives/negatives of the SWARM project

- Great collaboration between all universities
- Very innovative concept of project implementation
- The collaboration between partners, and internal communication
- Sharing experiences and best practices among project partners
- Excellent staff training programs, very useful equipment and training materials gained
- Good partnership, clear roles and obligations

Key benefits

- Improved inter-cultural working skills
- High-quality knowledge related to the project management tasks, dissemination possibilities and quality assurance and control methods
- Professional development, team building, improving skills
- New contacts for possible future collaboration
