Young Professionals in the Water Sector

EJWP is the Flagship Programme of:

International Symposium "Water Resources Management: New Perspectives and Innovative Practices"
Novi Sad, Serbia, 23-24 September 2021

Why do we need to INVEST in Young Water Professionals?

The Three Pillars of EJWP

Knowledge Creation and Transfer

European network opportunities through EJWP community building

Personal and professional skills development in international teams

EJWP's Professional Training Programme Focus

PERSONAL DEVELOPMENT

LEADERSHIP SKILLS DEVELOPMENT

FUTURE CENTURY SKILLS DEVELOPMENT

MANAGEMENT SKILLS DEVELOPMENT

COOPERATION SKILLS DEVELOPMENT

Why Am I here and what is my vision?

Why is this important?

personal
leadership

Am I setting myself and my team for success?

What are the different elements?

Cooperating within projects

- Creating new knowledge
- Practice how to share knowledge.
- Set up EU collaboration
- Putting collaboration & personal skills in practice

Our ambassadors programme

Added value to young water professionals

WATER-SMART

Play an important role in the future of a Water Smart European Society

DEVELOPMENT

Develop Professional, Personal skills and Leadership through training programmes

KNOWLEDGE

Through input of a "real" case within your organisation, creating new knowledge together.

EJWP PARTNERS

.. "We interact with other young experts in the water sector in different positions and with other perspectives."

" I am able to combine my study background and my work in one programme. I hope in the future to continue in this way to combine EU politics with water policy or regulations."

... 'EJWP smartly supports human capital for young water professionals for them to thrive, instead of hitting barriers and moving to other sectors. I see EJWP as a platform connecting knowledge and experiences.'
